THE MID-STATES CONCRETE MESSENGER

Volume 2 Issue 2 April 2008

The Speed of Mid-States Precast: 21 Weeks from Letter of Intent to Last Piece Installed

What do you get when you combine the speed of Precast and the dedication of Mid-States Concrete Industries? A building in about five months.

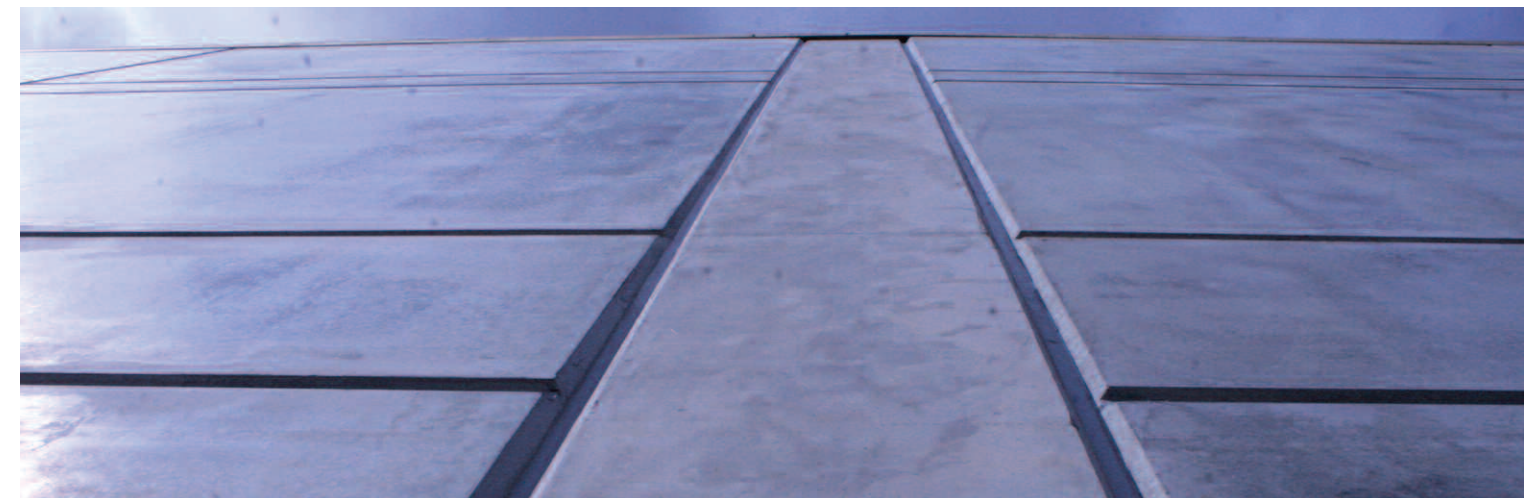

“Having a customer that wanted us at the table early in the design process was the key to making this project go smoothly,” stated Lynn Foster, Vice President of Special Projects Division for Mid-States. The Kerry Project in Gridley is another example of what a partnership with Mid-States can provide.

Mid-States is ready to provide you with a Total Precast Solution, just give us a call at (800) 236-1072.

Project Profile Kerry-Gridley:

- 395 pcs - Hollowcore
- 144 pcs - Wall panels
- 30 pcs - Columns
- 23 pcs - Beams
- 592 pcs
- 2417 cu yards

Step Beams? Huge Beams? We Can Do That!

Mid-States is currently partnering with Gilbane Building Company on a project in Milwaukee, Wisconsin, named The Edge Condominiums. This project resulted in the design and manufacture of a 60,000 pound, 31 foot long beam (see picture). It also includes 35,000 square feet of hollow-core plank, 98 beams and 52 columns all designed and manufactured by Mid-States.

Mid-States is proud to be a partner with its customer in the design, manufacturing, and installation of the various pre-cast elements.

Got a tough project – get us to the table early!

Rob Champlin and Ramon Lara stand next to the mammoth beam.

The on-site assembly of the step beams, plank and columns went off without a hitch.

Tom Jolly and Jim Messenger Hang Up Their Hard Hats After a Combined 65 Years of Service

Mid-States recently celebrated the retirement of two highly valued Field Service employees, Tom Jolly & Jim Messenger. During their 30+ years of service both individuals helped to shape the policies and procedures currently in use by the Field Service Department. It was clear to those attending the retirement parties that each gentleman had spent their career promoting the business philosophy of Mid-States: “to be easy to do business with”, and serving as role models for present and future Field Service crews. Mid-States thanks Tom and Jim for their commitment and dedication and wishes them the best of luck in wherever the future may take them.

Jim Messenger digs in to some much deserved celebration cake.

Tom Jolly holding his new head protection, his gardening hat.

“Thanks again for 65 years of service!”

S.N.A.P. Award Winner: Ellen Arndt

Hagen Harker presented Ellen Arndt with the Safety Nickel award for this quarter. Ellen’s safety nickel was chosen at random from all of the safety nickels awarded for the drawing. Safety nickels are presented to employees that practice good safety habits and recognize the importance of protecting fellow employees in each days work. Congratulations Ellen and enjoy the GPS!

Company President Hagen Harker presents Ellen Arndt with the S.N.A.P. prize.
